Kab. Semarang, Jawa Tengah

Informatics Engineering student with a strong interest in technology, design, and collaborative problem-solving. Seeking opportunities for professional development while contributing significantly to team projects and events.

Education

Universitas Kristen Satya Wacana - **Salatiga, Indonesia** Aug 2023

Bachelor of Informatics Engineering, 3.90/4.00

- Studied programming fundamentals, web development, and data structures, with a focus on applying theoretical concepts through practical assignments and projects.

SMA N 3 Salatiga - **Salatiga, Indonesia** Aug 2020 - Jul 2023

Senior High School, Science Major

Experience

Faculty Student Senate - **Salatiga** Jan 2025 - Dec 2025

Functionary

A faculty-level student organization that represents student interests and supports academic development, collaboration, and student activities.

- Organized cross-program events to foster collaboration between different study programs within the faculty.
- Contributed to planning and organizing faculty events, including knowledge-sharing sessions, workshops, and collaborative programs.

ISFEST (Information System Festival) - **Salatiga** Mar 2024 - Sep 2024

Liaison Officer

- Helped competition participants with their schedules and needs during the event and making sure communication with the committee ran smoothly.

Open House FTI - **Salatiga** Feb 2025

Liaison Officer

Faculty of Information Technology event designed to introduce study programs, campus life, and academic opportunities to prospective students.

- Assisted visiting high school students during the faculty open house by guiding them through activities and ensuring they received the information and support they needed.

BuildIT: No-Code Tech - **Salatiga** Apr 2025 - May 2025

Publication and Documentation Team

A hands-on technology workshop introducing no-code platforms and enabling participants to create digital solutions with minimal programming.

- Designed promotional materials and social media content to support event outreach
- Captured event moments through photography for internal documentation
